

Sichuan foofon technology Co., Ltd.

Sichuan foofon technology Co., Ltd. is a high-tech enterprise specializing in independent research and development of inkjet printing technology equipment such as digital inkjet printers, printing equipment, UV inkjet printers, and coding delivery platforms.

The company has a professional and mature R&D team, with a complete R&D and manufacturing system from core technology development, application software development, mold design, etc., and can provide OEM, ODM customized services according to user needs

PRODUCT COMPOSITION

① INDUSTRIAL INKJET HEAD T129HD

No maintenance required, long life, no air intake, faster printing speed, 24-hour continuous production, suitable for large, medium and small industrial production

② HIGH BRIGHTNESS CMYK MODE
Can meet the bright printing effect

③ CONVEYING PLATFORM
With the correction equipment, it can better meet the needs of small material transportation

Product Name	Single Pass Digital Printer	Ink detection	Ultrasonic Liquid-level Measuring System
Brand	FOOFON	Cleaning nozzle method	Key inking
Printhead Model	T129HD Industrial Inkjet Head	Ink supply mode	Continuous ink supply
Inkjet Technology	Thermal foaming/piezoelectric technology	Feeder head	Optional and customized
Printing type	one pass	Conveyor	Optional and customized (Suction guide belt type)
Printing resolution	1200x1200DPI/1200x600DPI / 1200x300DPI	Fuselage structure	One-piece cast iron welded frame
Print Speed	10-40 m/min	Beam structure	All aluminum
Core board	FOOFON Self-Development	Regulator	Adjustable mechanical baffle / software data positioning
Operating Software	FOOFON kois2.0	Positioning method	Infrared photoelectric induction positioning
Operating System	win7 win10(Computer operation)	Environmental requirements	Normal temperature 15-35 °C humidity 20% - 80%
Image format	BMP/JPG/PDF/TIFF	Input power supply	220V/110V 50HZ/60HZ
Data transfer	Ethernet/USB3.0/R232	Customized service	YES
Ink type	Dye ink, pigment ink	Thickness of printing material	0.1mm-140mm
Colors	C/M/Y/K	Nozzle to printing Material	1mm-3mm
Application	Corrugated kraft paper, sponge paper, writing paper ,rice paper and other surface absorbent materials or plastics containing inkjet layer	Ink consumption	1 square meter consumes about 8 ml of ink.

The parameters above are for reference only; the actual specifications will be subject to the sales-related Proforma Invoice/Contract

APPLICATION

Corrugated paper

Kraft paper

White cardboard

High-gloss paper

Non-woven bags

PRINT SAMPLE

OUR TEAM

Technology Department

Provide you with all use, debugging and assembly services.

Business Unit

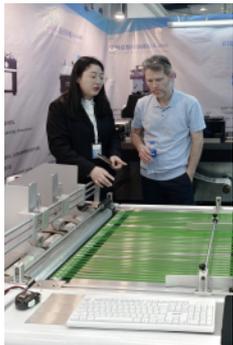

One-to-one service to solve all your product-related questions

R&D Department

Support OEM and ODM customization to meet different production needs
